

10 Great Resources For Landlords

TurboTenant

TurboTenant is a free service that helps you in all aspects of the rental process. Their products make it easier than ever to maximize the potential of your property.

RentRedi

This is a landlord-tenant phone application that streamlines rent collection, service request management, and property listing. A great service for a cheap price.

Zillow

They are one of the leading platforms for marketing/advertising vacancies. With Zillow Rental Manager you can list your property, screen tenants, and sign leases all in one place.

Rentometer

They provide estimations of rent prices in neighborhoods all over the US. Landlords can get rent comparisons of neighboring properties that allows them to list their properties well.

TenantCloud

Their main purpose is to make the lives of property owners easier. TenantCloud offers a multitude of tools that are designed to simplify the rental process.

Evernote Scannable

This cell phone app scans paper items such as business cards and meeting notes. From there you can save the documents to your cloud and access them from all of your devices.

RentTracker

RentTracker provides its users with a secure cloud for storing various documents. You will no longer have to worry about your hard drive crashing and losing all your data.

Innago

This company provides an easy to use software where landlords can sign leases, collect rent, and do many other property management duties. And its free!

InvestFourMore

They offer a property cash flow calculator so landlords can measure actual cash flow. You can also find advice on a variety of different real estate topics on their website.

AARP

AARP offers a free investment calculator so landlords can analyze potential ROI. Simply plug in the prompted information and have results in seconds.
